

Research Seminar Paraplegia 2019 / 1

Auditorium, Balgrist University Hospital, Forchstrasse 340, 8008 Zurich
Wednesday, 12.05 – 13.00 h

Date	Chairperson	Topic	Presenter
9.1.	M. Hubli	<i>Multi-modal neurophysiology in myelopathy</i>	Paulina Scheuren
23.1.	M. Schubert	<i>Intra- and Intermuscular Coherence in healthy subjects during Gait</i>	Freschta Mohammadzada
30.1.	M. Bolliger	<i>FLOAT V3 – Bridging Research and Clinical Application</i>	Mathias Bannwart
27.2.	R. Riener	<i>The Myoshirt - Assisting Shoulder Function in Everyday Life</i>	Marie Georgarakis
6.3.	P. Freund	<i>Identifying metabolic biomarkers after SCI using MRS</i>	Dario Pfyffer
27.3. @ OK B61	M. Bolliger	<i>Body weight supported overground training (FLOAT) vs. Body weight supported treadmill training</i>	Romina Willi
10.4.	R. Riener	<i>New ARMin Features</i>	Fabian Just & Yves Zimmermann
17.4. @ OK B62	M. Bolliger	<i>Lower extremity outcome measures: Comprehensive assessment of walking function</i>	Adrian Cathomen
24.4.	P. Freund	<i>Quantitative MRI investigation of injury-induced changes in SCI</i>	Michela Azzarito
22.5.	M. Bolliger	<i>Assessing gait quality with IMUs</i>	Roushanak Haji Hassani
29.5.	M. Hubli	<i>Brain connectivity in neuropathic pain</i>	Vincent Huynh
5.6.	M. Bolliger	<i>Characterizing gait deficits of patients with a chronic incomplete spinal cord injury</i>	Christian Meyer
19.6.	T. Kessler	<i>Neuroanatomical changes involved in bladder dysfunction</i>	Andrea Sartori
26.6.	M. Hubli	<i>Pain phenotyping following SCI</i>	Robin Lütolf

Responsible: M. Bolliger, 044 510 72 01, marc.bolliger@balgrist.ch
Coordination: S. Frei, 044 510 72 07, steve.frei@balgrist.ch
